Experience

Frontend Developer — Client Project (Indiana)

2026

PupWorld — pupworld.com

- Worked with an American client to redesign and modernize the PupWorld website for better usability and performance.
- Rebuilt UI components and improved responsiveness across mobile and desktop views.
- Delivered a live demo version showcasing enhancements: akshay0524.github.io/pupworld

Professional Summary

Frontend-focused developer aspiring Full Stack Engineer with strong experience in building scalable web applications using modern JavaScript frameworks and backend technologies. Passionate about creating clean user interfaces, writing maintainable code, and solving real-world problems through technology.

Education

B.Tech — Computer Science Engineering

2023 – 2027

Vignan Lara Institute of Technology and Science (VLITS)

Projects

CryptoVerse — Crypto Market Analytics Platform

React, Vite, Tailwind, APIs

- Designed and developed a multi-page cryptocurrency tracking platform with real-time price updates, historical charts, and detailed coin insights.
- Implemented global search, watchlist functionality, and responsive UI for seamless experience across devices.
- Live Demo: crypto-verse-ashy-seven.vercel.app

Event Management System (EMS)

React, Node.js, Express, MongoDB

- Built a full-stack event management solution for handling event creation, registrations, and user management.
- Implemented role-based access for admins and participants with secure REST APIs.

Real-Time Chat Application

React, Node.js, Socket.IO, MongoDB

- Developed a real-time messaging application supporting one-to-one and group chats with instant message delivery.
- Added features such as online status, typing indicators, message timestamps, and JWT-based authentication.

Technical Skills

Frontend Development: JavaScript (ES6+), React.js, Next.js, TypeScript, Tailwind CSS, HTML5, CSS3

Language: Python, C, Java

Backend Development: Node.js, Express.js, RESTful APIs, JWT Authentication

Databases: MongoDB, Mongoose ODM

Real-Time & Integrations: Socket.IO, Third-party API Integration

Tools & Platforms: Git, GitHub, Postman, VS Code, Vite

Deployment & DevOps (Basic): Vercel, Netlify, Render

Core CS Foundations: Data Structures & Algorithms (Basics), OOPS, DBMS

Awards & Achievements

- **3× Hackathon Winner** — Won two internal college hackathons for building innovative full-stack and AI-based applications.
- **Top 5 — Mindsprint Hackathon** — Secured **5th place** among **200+ teams** in a national-level hackathon.
- Recognized for excellence in competitive programming and project innovation events.

Certifications

- **Full Stack Web Development Certification** — Covered React, Node.js, Express, and MongoDB.
- **JavaScript & Modern Frontend Frameworks** — Advanced ES6+, React, and performance optimization.
- **MongoDB for Developers** — Hands-on experience with schema design, aggregation, and indexing.

Soft Skills

Time Management — Public Speaking — Team Player — Fast Learner
